

COURSE PACK QUICK START GUIDE

It's easy to use Visible Body's highly visual and interactive anatomy and physiology apps in your D2L course online; on your PC or Mac; and on your iPad, iPhone, or Android device. Follow these three simple steps to access your Course Pack content.

STEP 1: PURCHASE YOUR VISIBLE BODY COURSE PACK

Follow your professor's instructions to purchase your Course Pack in one of the following ways:

- 1 Log into your D2L course, select any Visible Body content, and **choose** "Need a Username and Password?" on the Course Pack login page.

- 2 Open your student resource page and **select** "Buy the Course Pack."

Both options will take you to Visible Body's online store

- Enter your payment information, confirm your order, and submit your payment.
- Check your purchase confirmation email for the **username and password** that unlocks your online and mobile Course Pack content and the serial number that unlocks your PC/Mac content.

STEP 2: ACCESS YOUR ONLINE COURSE PACK RESOURCES

- Log into your D2L course.
- **Select** any Course Pack assignment or graded quiz.

The screenshot displays the D2L course interface for 'Human Anatomy Atlas Quickviews'. The top navigation bar includes 'Content', 'External Learning Tools (LTI)', 'Assessments', and 'Course Tools'. The left sidebar features a 'Search Topics' field and a 'Table of Contents' with categories: 'Human Anatomy Atlas Quickviews Draft' (177 items), 'Circulatory System Views Draft' (12 items), 'Digestive System Views Draft' (13 items), 'Endocrine System Views Draft' (12 items), and 'Lymphatic System Views' (12 items). The main content area shows the 'Human Anatomy Atlas Quickviews' section with a 'Draft' status and options to 'Add dates and restrictions...', 'Add a description...', and 'New'. Below this, a 'Circulatory System Views' section is visible, listing 'Circulatory System', 'Location of Heart', 'Vasculature of the Brain', and 'Circle of Willis', each with a checkmark.

On the login page, enter the Course Pack username and password you received in your purchase confirmation email.

You only need to do this once per semester to unlock your online assignments and graded quizzes.

STEP 3: ACCESS YOUR MOBILE AND PC/MAC APP(S)

- For mobile or PC/Mac access, **select** the mobile or PC/Mac link(s) on your student resource page or purchase confirmation email.
- For mobile access, download the app(s) and enter the Course Pack username and password from your purchase confirmation email to unlock each app on one iPad, iPhone, or Android device.
- For PC/Mac access, download the app(s) and enter the serial number from your purchase confirmation email to unlock each app on up to two PC or Mac computers.

You need to be connected to the Internet to install the apps, but once they are on your device, you don't need the Internet to use them.

The mobile and PC/Mac downloads are provided for your reference, and once downloaded, they are yours to keep. There is no time limit on these!

Please keep in mind that you must complete your Visible Body assignments in D2L.
