Welcome to Visible Body Courseware!

With a Visible Body Courseware account, you can:

• Complete lesson assignments and graded quizzes.

• Check your grades in the Gradebook.

• Explore Visible Body’s web and mobile apps in the My Apps section.
Extend a trial

Click on your email address in the upper right-hand corner. Click on “Extend Access,” then enter an activation code or payment information.
Complete Courseware assignments and quizzes from your computer’s browser at https://courseware.visiblebody.com.

On the Assignments page, a red alert in the menu and a red dot in the assignments list indicates a quiz or assignment that needs to be completed.

Three horizontal lines indicate non-graded quizzes and assignments. Checkmarks indicate graded quizzes. After you open an assignment, the red dot no longer appears.
You can also click on “Calendar” in the left menu to see your assignments. Click on any assignment to access it.
Access Web Apps by clicking on an assignment or from the “My Apps” page.
Launching the Web Apps

When you launch an app, our detailed anatomical models may take several minutes to download. After loading, navigation is instantaneous.

To minimize initial load times:

- Stay on the page while it loads
- Use Firefox, Chrome, or Safari (v10 or later)
- Exit other applications and close other browser tabs
- Clear browsing history
- Confirm computer operating system: 64-bit Windows 8.1/10 or Mac OS X 10.12 or later and 4GB of RAM
- Confirm Internet download speed of 30 Mbps or higher - www.speedtest.net
Zooming, dissecting, and rotating the 3D model

- Left click on the model to rotate.
- Hold down the spacebar and drag the mouse to move the model.
- Scroll up and down on the mouse to zoom in and out.
- Double-click on the model to zoom in on and center the object on the screen.
- Advanced Keyboard Controls
How to access detailed information on any structure

Select a structure and its content box appears. Click on:
• the caret to view the hierarchy.
• the book icon for a definition.
• the stethoscope icon for related pathologies.
• the speaker icon for the English language pronunciation.
• the blast icon to add surrounding anatomical structures.
• the isolate icon to view a structure with all surrounding anatomy removed.
• For bones, the bony landmark icon for detailed landmark information.
• For muscles, the red pin icon for information about the muscle’s origins and insertions, blood supply, innervation, and actions.
How to find systems or structures

While in a 3D view, use the Anatomy Search box to find a structure.

Select the Systems icon to add or delete whole body systems. You can also add or delete by region.

The breadcrumb trail represents an anatomical hierarchy. Use it to select groups of related anatomy within each body system.

Select the Radius Blast button to add all anatomy in the the same region of the body.
Your Courseware subscription includes mobile versions of Visible Body apps. Each mobile app may be downloaded to one device (phone or tablet), one time. These apps are yours to keep as references forever. There is no time limit!

- In Courseware, select “My Apps” from the menu on the left.
- Write down the activation credentials (username and password) listed in the “My Mobile Apps” section. You’ll need these to download your apps.
- Select the appropriate Share link for App Store or Google Play and enter your email address. Then select “send”.

Visible Body Courseware
MOBILE APPS

Courses

My Web Apps
Explore the web versions of your favorite Visible Body apps. Just select the app icon to launch the app.

My Mobile Apps
Use the links below to download your apps on your mobile device. You can only use the username and password once to install the mobile version of each Visible Body app on one iPad/iPhone or Android device.

To activate, use the following credentials:

Note: This username and password was also emailed to you when you purchased your subscription to the Visible Body Courseware platform.
Visible Body Courseware
MOBILE APPS

Here's the link to install Anatomy & Physiology from the App Store.

Be sure to have your username and password ready! You'll need it to activate the app after installation.

• On your mobile device, open the share email. Click on the link (shown circled in the image above) and follow the steps to install the app.

• After you install each app, enter the unique username and password from the My Apps page.

• Here are the system requirements.
Select a 3D model view in the Human Anatomy Atlas mobile app and tap the AR button to enter Augmented Reality mode.

Scan the environment to find a flat surface; a yellow target will appear. Tap the target to place the model.

Drag two fingers on screen to reposition the model.

Use one finger to rotate the model.

Pinch open or close to zoom in and out.

Select a structure to access additional information.

Select the AR button to place the model on a new surface (you’ll see a “reposition” option) or to exit Augmented Reality mode.
For help, click on the question mark at the top right of any Courseware page and choose Help Center.

Then click on a FAQ, visit the support forum, or contact tech support.
